Unit 9 — Technology in the Workplace

2026 English for the Office. All rights reserved.

Automated

operated without the use of manual efforts

"The production line is fully automated, so does not need any human operators."

Breakdown

a mechanical failure

"The company replaced all of the photocopiers as they were having problems with breakdowns."

Breakthrough

a sudden discovery or development

"A lot of people say that the most important breakthrough of the last century was the internet."
